Election/Restrictions

1. Claims 17-20 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 8.

DETAILED ACTION

Claim Rejections - 35 USC § 102

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1-4,7-16 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Yoshimura et al (256 and 065), each taken alone, for reasons of record.

Applicants argue that Yoshimura et al fail to teach the claimed aspect ratio of from 1.0 to 1.3. Yoshimura et al teaches the titanium nitride compounds are present as particles which would indicate a spherical shape, column 3, line 35, '065 patent. Furthermore only one dimension is given rather than a length and width or an aspect ratio further suggesting a spherical particle, which would have an aspect ratio of around 1. It is further argued Yoshimura et al fail to recognize the improvement in rolling fatigue. Yoshimura teaches the material may be used as sliding parts (column 1, lines 16-17), which would require high rolling fatigue life. Furthermore, the maximum in particle size taught by Yoshimura et al '256 is

Art Unit: 1755

.1 microns (column 4, lines 11-12). Also .04 microns set forth in the instant claims is below the 300 nm (.3 microns) taught in Yoshimura et al 065.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
